* The investor is liable for CGT on any transactions in the units of the underlying unit trusts within the wrap funds. Compulsory investments are not subject to CGT. Performance is calculated using net returns (after fees) of the underlying unit trusts, and quoted excluding wrap fund fees. Performance quoted is pre-tax. Fund performance numbers shown are for a notional portfolio and do not reflect the actual performance of the client invested in the wrap fund due to timing differences of investments or disinvestments of the client. Benchmark returns for CPI are based on actual published returns and an estimated one month return for the month of the report date. ASISA Benchmark returns are the ASISA returns available as at the time of reporting.

Manager Comment

The US economy continued to show strength in March, with job gains of 303 000 relative to a downwardly revised February figure. Although the Chinese property market is still lagging, China's manufacturing activity expanded: the Caixin China General Manufacturing Purchasing Managers' Index (PMI) rose to 51.1 in March 2024 from 50.9 in February 2024. Preliminary GDP data suggested that Japan was in a technical recession, but revised GDP data released in March showed that a technical recession was avoided, with the country expanding by 0.4% year-on-year (y/y) in Q4 2023. South Africa's GDP expanded by 0.1% in Q4 2023 after contracting by 0.2% in Q3 2024, enabling the economy to narrowly avoid a technical recession.

Positive global equity momentum carried into March, which was the fifth consecutive positive month for global stocks. The MSCI World Index ended the month up 3.21% in dollar terms. Emerging market (EM) stocks lagged their developed market (DM) peers in March but ended in positive territory, with the MSCI EM Index up 2.49% month-on-month (m/m) in dollar terms. The semiconductor sector largely contributed to the monthly performance. Mega-cap US tech stocks performed in March and Nvidia continued to attract investors, boosting the S&P 500 Index to end the month 3.22% higher, m/m. Alphabet rallied in March as it announced plans to roll out its AI technology across various parts of the health care sector, including plans to improve screening for cancer and other diseases. Global bonds and global property ended the month positively at 0.55% and 3.61% respectively, both in dollars. The Dow Jones Index was positive at 2.21% m/m in dollars and the FTSE gained 4.75% m/m in pounds. The Euro Stoxx Index gained 4.38% m/m.

South Africa was the best-performing of its major EM peers in March, clawing its way back towards positive territory. The FTSE/JSE All-Share Index gained 3.23% in rand terms. Industrials, Property and Financials were in negative territory at -0.6% m/m, -1.02% m/m and -3.36% m/m respectively. Resources gained 12.8% m/m and cash gained 0.7% m/m. The bond market underperformed, with the FTSE/JSE All-Bond Index ending at -1.93% m/m in rands. Bonds of 1-3 years were positive, ending the month at 0.07%, with bonds of 3-7 years at -1.37% m/m, bonds of 7-12 years at -2.28% m/m and bonds of above 12 years ending at -2.85% m/m. The rand was one of the stronger EM currencies, gaining 1.31% m/m against the US dollar, 1.51% m/m against the euro, 1.44% m/m against the pound, 0.19% against the Japanese yen and 0.002% m/m against the Australian dollar.

Investment Committee

The investment committee forms an integral part of the investment management process. The investment committee members are involved in the process of multi management by participating in the Investment Committee Framework (the "Framework"). This Framework provides intermediaries with a platform to share their research and views with qualified investment professionals who will, based on certain constraints, construct a portfolio taking the intermediary's research into account.
